Dear Mr. Dhingra,

On behalf of the Admissions Committee, I am pleased to offer you admission to the Master of Science in Financial Mathematics program starting in the fall of 2009.

We regret that the university will not be able to offer any financial aid, and it will be up to the individual student to find ways to finance tuition costs and living expenses. You may want to contact the Graduate Financial Aid office at the University of Chicago to discuss possible ways to finance the education. You can find links to this information and further insight into the life of a graduate student at The University of Chicago by visiting the Graduate Student Gateway at: <http://grad.uchicago.edu/>

We hope you will accept our offer and ask you to inform us in writing about your decision no later than Thursday March 12, 2009. Please return the Admission Reply Form that we have included in this mailing. You may sign, scan and email the form to finmathadmissions@math.uchicago.edu, or you may fax to: 773-834-4386. If we do not hear from you by March 12, we will assume that you decline our offer. Upon receiving your acceptance, we will send you further information.

Congratulations, hoping to see you next fall,

Ankur,

Congratulations, I am pleased to inform you that the Master of Science in Quantitative Financial Economics Program Committee has chosen to admit you to the MSQFE Program at Oklahoma State University. Thirty-four applicants were admitted to the Program from more than sixty applications. You were selected on the basis of superior qualifications reflected in your application materials, test scores and work experience.

You have been (will be) informed by the Graduate College regarding your admission to the Oklahoma State University Graduate College. Admission to the Graduate College is a necessary prerequisite before enrolling for the Fall 2004 semester. Enrollment for Fall 2004 classes will take place in the week August 16-20. Classes begin August 23rd.

Prior to your enrollment, you will need to consult with me to determine your class schedule and initial plan of study. If you need any additional information about the program, please let me know.

I am certain that you will find your participation in the Master of Science in Quantitative Financial Economics Program at Oklahoma State University challenging and rewarding.

Please feel free to contact me if you have any questions or concerns. I look forward to having you join the Master of Science in Quantitative Financial Economics Program at Oklahoma State University.

Sincerely,

Dear Ankur:

I would like to send you my warmest congratulations on your admission to Claremont Graduate University. I am thrilled to hear of your successful application and would like to welcome you to our academic community.

CGU has a 78-year tradition of excellence in graduate education. As a doctoral research university, we place a strong emphasis on the delivery of high quality education to students based on cutting-edge research. Our classification by the Carnegie Foundation as a doctoral research extensive university speaks to CGU's high academic standards and strong research orientation. Because CGU is a graduate-only institution, it provides an unparalleled environment for your graduate study. In addition, CGU's relatively small size allows close faculty-student contact and provides opportunities for innovative curriculum and degree programs with an emphasis on transdisciplinary studies.

I know that the faculty and students in your program are impressed with your background and abilities. We all look forward to what you will add to the CGU community of excellence. I hope to meet you personally here at CGU. Again, welcome to Claremont!

Best regards,

Dear Mr. Dhingra:

I am pleased to inform you that you have been recommended for admission to the Rackham School of Graduate Studies to begin a Master's Degree in Financial Engineering program starting **Fall Term, 2004**. You will soon be receiving material relating to your admission from the Rackham Graduate School Admission Office.

After a preliminary review of your academic record with respect to the requirements for the FE program, the Admissions Committee has concluded that you have a *deficiency in accounting, finance, probability and statistics*, which must be removed prior to or during the first term. See attached instructions for details.

To assist you in your academic planning, please be aware that counseling and course registration begins **August 31, 2004**. When you arrive on campus, you should report to the FE Program Office in Room 273B Chrysler Center on North Campus. The Graduate Program Assistant will help you with the paperwork, arrangements, and an appointment for counseling and registration.

If you have any questions about your admission or your program, contact the Graduate Program Assistant at 734-763-0480, or hek@umich.edu.

Please keep us advised of any change of address. We hope that you will accept this offer of admission, and look forward to meeting you in person.

Sincerely,

Dear Sir/Madam:

It is a pleasure to inform you that you have been admitted to our mathematics program for the Fall, 2004 term. We regret, however, that the department is unable to award you financial assistance.

Should you obtain funds for your educational expenses, please let us know immediately so your file can be processed by the Office of Admissions for the Fall, 2004 term. If you have not already done so, please submit the Certification of Financial Responsibility Form and supporting documents from your financial institution to our International Center. After our International Center receives them, they will continue to verify your other documents and, if approved, will send you the admission packet.

If you are unable to gain funding for this year and would like to reactivate your application for entrance in a future term, you may do so without an additional application fee. Simply inform us of your desired term and we will reconsider your admission with financial assistance for that term.

Please let me know if I can be of further assistance in your application.

Dear Mr. Dhingra:

Your application for admission to graduate school in mathematics has been reviewed by faculty members. I am sorry to inform you that the department cannot offer you an assistantship or admission for the academic year 2004-05.

The number of qualified students who apply each year to our program greatly exceeds the number of students we can train and support. We are thus forced to be quite selective.

I thank you for your interest in our department and I am sorry that the review was not more favorable. Our decision is not intended to discourage you from seeking an advanced degree in mathematics. I wish you success in pursuit of your graduate studies.

Sincerely yours,

Johnny E. Brown
